

# CALL FOR PAPERS

**ICNICT 2021**  
**Apr 29-30, 2021**  
**Jerusalem, Israel**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNICT 2021 : International Conference on Network Infrastructure and Communication Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Network Infrastructure and Communication Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Information and communication  
technology  
Communication systems and  
engineering  
Augmented and alternative  
communication  
Power systems and power  
electronics  
Electronics and computer systems  
Telecommunications and networks  
Big data management and  
application  
Communication, network and  
hardware  
Internet of things

Cyber-physical system  
Network infrastructure and  
protocol  
Human machine communication  
Communication systems  
VLSI and embedded systems  
Emerging technology and  
applications  
Industrial electronics  
RF and microwave engineering  
Signal processing
