

CALL FOR PAPERS

ICNICT 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNICT 2021 : International Conference on Network Infrastructure and Communication Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Network Infrastructure and Communication Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Information and communication
technology
Communication systems and
engineering
Augmented and alternative
communication
Power systems and power
electronics
Electronics and computer systems
Telecommunications and networks
Big data management and
application
Communication, network and
hardware
Internet of things

Cyber-physical system
Network infrastructure and
protocol
Human machine communication
Communication systems
VLSI and embedded systems
Emerging technology and
applications
Industrial electronics
RF and microwave engineering
Signal processing
