

CALL FOR PAPERS

ICOCS 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOCS 2021 : International Conference on Optoelectronics and Computer Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Optoelectronics and Computer Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electrical and computer engineering
High performance computing
Expert systems
Embedded system and software
Fuzzy logic
Soft computing techniques in power systems
Smart grids
Computer architecture and real time systems
Dependable, reliable and autonomic computing
Software engineering and quality
Sensing and sensor networks

Communication engineering
Analog circuits and signal processing
Electronics and electrical engineering
Computer science applications
Mechanical systems
Photonics and optoelectronics
Networking, communication and multimedia
Information engineering
Wireless/Mobile communication And computing
Cloud computing
