

CALL FOR PAPERS

ICPCMA 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPCMA 2021 : International Conference on Polymeric Composite Materials and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Polymeric Composite Materials and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Polymeric composite materials
Hybrid polymer composite materials
Reinforcing fibers and fibrous
polymer composites
Structural analysis of polymeric
composite materials
Production and characterization of
polymeric composite materials

Finite element modeling of
polymeric composite materials
Structure and chemistry of
polymeric composite materials
Structure and damage
characteristics of polymeric
composite materials
Chemistry of polymeric composite
materials
