

CALL FOR PAPERS

ICRCDS 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRCDS 2021 : International Conference on Rain Control and Design Strategies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Rain Control and Design Strategies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Rain control in buildings
Rain control theory
Drainage, storage and transmission
Rain control strategies
Rain control and design strategies

Building design, construction and
maintenance for moisture control
Moisture control in buildings
Building envelope water and
moisture management
Selection and arrangement of
enclosure materials
