

CALL FOR PAPERS

ICSADCAC 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSADCAC 2021 : International Conference on Spacecraft Attitude Determination, Control and Attitude Control is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Spacecraft Attitude Determination, Control and Attitude Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Actuators
Attitude control
Attitude determination
Attitude estimation
Control theory
Guidance, navigation and control

Kalman filter
Nonlinear filtering algorithms
Sensor calibration
Small spacecraft
System design
Spacecraft dynamics
