

CALL FOR PAPERS

ICSGSE 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSGSE 2021 : International Conference on Smart Grid and Smart Energy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Smart Grid and Smart Energy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Smart Grid Architectures	Wide-Area Monitoring and Control
National/International Energy Security	Communication-Based Control and Protection
Smart Grid Strategy and Planning	Smart Grid Implementation
Smart Grid Architectures and Models	Smart Grid Implementation and Field trials
Smart Grid Security and Reliability Management	Energy Management Systems for Smart Grid
Smart Grid Market Operations	Smart Grid Testing and Assessing Technologies
Smart Grid Standards	Smart Sensors and Metering Infrastructure
Smart Grid Interconnection	Smart Grid Demand Response
Smart Grid Networking and Communications	Smart Grid Interactive Technologies
Integration of Distributed Resources	Power and Energy Engineering
Smart Grid Cyber and Physical Security	Electricity Networks of the Future
Bi-Directional Energy Transfer
