

CALL FOR PAPERS

ICSISIAE 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSISIAE 2021 : International Conference on Swarm Intelligence and Swarm Information Acquisition in Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Swarm Intelligence and Swarm Information Acquisition in Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Benchmarking and evaluation of new
swarm intelligence algorithms
Convergence proof for swarm
intelligence algorithms
New swarm intelligence algorithms
for real-world applications
Comparative theoretical and
empirical studies on swarm
intelligence algorithms
Ant colony optimization

Particle swarm optimization
Artificial bee swarm algorithm
Bacterial foraging optimization
Artificial fish algorithm
