

CALL FOR PAPERS

ICSPOER 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPOER 2021 : International Conference on Sea Power and Ocean Energy Resource is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sea Power and Ocean Energy Resource. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Sea power
- Ocean thermal energy
- Ocean energy resource
- Ocean power technologies
- Wave energy technology
- Wave power conversion systems for electrical energy production
- Tidal power plants

- Tidal power generation
- World energy needs and potential resources
- Hydrocarbons from the sea floor
- Environmental aspects of ocean energy activities
- New directions over old sea lanes
- Applications and implications of ocean thermal energy conversion system
