

CALL FOR PAPERS

ICSPWEN 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPWEN 2021 : International Conference on Sea Power and World Energy Needs is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sea Power and World Energy Needs. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sea power
Ocean thermal energy
Ocean energy resource
Ocean power technologies
Wave energy technology
Wave power conversion systems for electrical energy production
Tidal power plants

Tidal power generation
World energy needs and potential resources
Hydrocarbons from the sea floor
Environmental aspects of ocean energy activities
New directions over old sea lanes
Applications and implications of ocean thermal energy conversion system
