

CALL FOR PAPERS

ICRAUG 2021
Apr 22-23, 2021
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRAUG 2021 : International Conference on Recent Advances in Urban Geoinformatics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Advances in Urban Geoinformatics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban geoinformatics	Emergency response
Geographic information system	Transportation management
Remote sensing	Asset management
Global navigation satellite system	Infrastructure management
Urban disaster mitigation and management	Facility management
Early warning	Smart and sustainable urbanization
Risk assessment and management	Smart cities
Mapping disasters	Urban land use/land cover
Disaster resilience	Urban resource management
Hazard mapping	Master plan preparation
Urban utility management	Urban forestry
Location-based services (lbs)
