

CALL FOR PAPERS

ICBTT 2021
Apr 22-23, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBTT 2021 : International Conference on Biomedical Technology and Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Technology and Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical technology
Clinical measurements and measurement devices
Biomedical imaging techniques and technologies
Molecular biology techniques and applications
Genetic and tissue engineering
Interventional disease treatment
Ambulatory applications for monitoring physiological parameters
Alternative and emerging techniques
Biomedical device engineering
Biomedical robotics
Computational biological systems
Biosensors and bioelectronics
Rehabilitation engineering surgical devices

Surgical devices and medical technology
Surgical instrumentations
Bioengineering
Nanobiotechnology
Biomedical imaging and biosignal
Biomedical and healthcare engineering
Biomedical technology
Biomechanics
Biomaterials and artificial organs
Biomolecular engineering
Biological imaging
Cellular engineering
Robotics and physiology
