

CALL FOR PAPERS

ICCGMIP 2021
Apr 22-23, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCGMIP 2021 : International Conference on Computer Graphics, Multimedia and Image Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Graphics, Multimedia and Image Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

3D imaging
Case studies
Case studies and emerging technologies
Classification and clustering techniques
Color and texture
Compression methods
Computational geometry
Computer animation
Computer art and entertainment (including games)
Curves and meshes
e-Learning applications and computer graphics
Emerging display technologies
Emerging technologies

Face recognition, face detection, and gesture recognition
Fractal geometry and applications
Graph theory in image processing and vision
Graphics algorithms and applications
Haptic devices and techniques
Human-computer interfaces
Illumination and reflection techniques
Image compression, coding, and encryption
Image data structures for computer graphics
Image feature extraction
Image generation, acquisition, and processing
Image geometry and multi-view geometry
Image-based modeling and algorithms
