

CALL FOR PAPERS

ICTSE 2021
Apr 22-23, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTSE 2021 : International Conference on Transportation and Systems Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Transportation and Systems Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transportation engineering
Highway engineering
Railroad engineering
Port and harbor engineering
Airport engineering
Scientific principles of planning,
functional design, operation and
management
Urban planning
Urban transportation planning
model

Trip generation
Trip distribution
Mode choice
Route assignment
Traffic engineering
Intelligent transportation systems
Vehicle infrastructure integration
