

CALL FOR PAPERS

ICCG 2021
Apr 19-20, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCG 2021 : International Conference on Combinatorics and Graphs is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Combinatorics and Graphs. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algebraic Combinatorics	Enumerative Combinatorics
Combinatorial Geometry	Enumerative Combinatorics of Trees and Permutations
Combinatorial Matrix Theory	Extremal / Enumerative / Probabilistic / Analytic Combinatorics
Combinatorial Number Theory	Extremal Combinatorics
Combinatorial Optimization	Finite Fields
Combinatorics and Combinatorial Computing	Graph Theory
Combinatorics and Graph Theory	Graph Theory, Combinatorics and Computing
Combinatorics, Graph Theory and Applications	Ordered Sets
Combinatorics, Graph Theory and Computing	Random Methods
Design Theory	Recent Developments in Graph Theory
Designs and Configurations	Structural Families of Graphs and Orders
Discrete and Combinatorial Mathematics	Topological Combinatorics
