

CALL FOR PAPERS

ICCG 2021
Apr 19-20, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCG 2021 : International Conference on Combinatorics and Graphs is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Combinatorics and Graphs. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algebraic Combinatorics
Combinatorial Geometry
Combinatorial Matrix Theory
Combinatorial Number Theory
Combinatorial Optimization
Combinatorics and Combinatorial Computing
Combinatorics and Graph Theory
Combinatorics, Graph Theory and Applications
Combinatorics, Graph Theory and Computing
Design Theory
Designs and Configurations
Discrete and Combinatorial Mathematics

Enumerative Combinatorics
Enumerative Combinatorics of Trees and Permutations
Extremal / Enumerative / Probabilistic / Analytic Combinatorics
Extremal Combinatorics
Finite Fields
Graph Theory
Graph Theory, Combinatorics and Computing
Ordered Sets
Random Methods
Recent Developments in Graph Theory
Structural Families of Graphs and Orders
Topological Combinatorics
