

CALL FOR PAPERS

ICRDEIT 2021
Apr 19-20, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRDEIT 2021 : International Conference on Recent Developments in Electrical Installation Technologies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Developments in Electrical Installation Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electrical installations
Electrical installation and engineering
Electrical installation and maintenance technology
Protection, control and electrical devices
Electromagnetism
Inductance
Charges
Insulators and conductors
D.C. circuits and A. C. Circuits
Voltage drop and current rating
3-phase voltage-drop calculations

Wiring techniques
The 3-phase induction motor
Transformers
Power-factor improvement
Earthing and earth-leakage protection
Testing
Illumination
Heating
Communication systems and equipment
Electronics
Management
