

# CALL FOR PAPERS

**ICSHEMS 2021**  
**Apr 08-09, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSHEMS 2021 : International Conference on Smart Home Energy Management Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Smart Home Energy Management Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Smart home energy management  
Smart home energy management  
systems and technologies  
Smart home energy storage systems  
Renewable energy resources in smart  
houses  
Design of home energy management  
systems  
Household device models

Optimal residential energy  
management  
Energy scheduling strategies in  
smart houses  
Smart grid technologies  
Real-time monitoring of energy  
networks  
Integration of distributed energy  
resources  
Information and communication  
systems for home energy management
