

CALL FOR PAPERS

ICBFMT 2021
May 27-28, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBFMT 2021 : International Conference on Bioprocess and Fermentation Monitoring Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioprocess and Fermentation Monitoring Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioprocess and fermentation
monitoring
Fermentation monitoring, design and
optimization
Instrumentation and control of
bioprocesses
Biosensors and automation for
bioprocess monitoring and control
High-performance bioreactors

Metabolic control analysis
Metabolic engineering
Metabolic flux analysis
On-line monitoring
Quantitative physiology
