

CALL FOR PAPERS

ICETWM 2021
May 27-28, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETWM 2021 : International Conference on Energy Transformation and Waste Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Transformation and Waste Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioenergy and Biofuels
Energy Conservation and Management
Renewable Energy
Light Pollution
Pollution
Green Energy and Green Power
Environmental Pollution
Air Pollution and Treatment
Water Pollution and Treatment
Solid Waste Disposal
Marine Pollution

Energy Transformation from
Renewable Energy System
Industrial Pollution
Waste Management and Treatment
Pollution Control Technologies and
Devices
Pollution Sources
Pollution and Health Effects
Human Impact on the Environment
Renewable Energy Research and
Applications for Industries
Environmental Sustainability and
Development
Trending Market in Pollution
Control Devices
Entrepreneur Investment Meet
