

# CALL FOR PAPERS

**ICGDTS 2021**  
**May 27-28, 2021**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGDTS 2021 : International Conference on Geolocation Database Techniques and Software is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geolocation Database Techniques and Software. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geolocation	Regional licensing
Identification or estimation of the real-world geographic location	Target content
Standards	Gaming
Geolocation software	Statistical analysis
Technology	Data mining
Geolocation database	Geographic location data
Geo-location database techniques	Wireless geolocation systems
Data sources	Geolocation databases
Privacy	Sustainability geolocation, risk, issues and strategies
Applications	Geolocation accuracy
Criminal investigations	Geolocation tools and geographical market segmentation
Fraud detection	Privacy of geolocation
Geo marketing	implementations
