

CALL FOR PAPERS

ICHBU 2021
May 27-28, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHBU 2021 : International Conference on Human Behavior Understanding is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Human Behavior Understanding. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Autonomous mental development
- Behavioral biometrics
- Benchmarking studies on novel databases
- Facial, gestural and voice-based affect recognition for robotics
- Human motion analysis and action recognition
- Human-robot interaction
- Imitation learning
- Mathematical description and integration of contextual information

- New feature selection and extraction methods
- Novel sensors
- Pattern discovery
- Robots and smart environments
- Sign-language recognition
- Social behavior analysis and modeling, multimodal behavior patterns
- Temporal patterns
