

# CALL FOR PAPERS

**ICBCMC 2021**  
**May 13-14, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBCMC 2021 : International Conference on Boron in Catalysis and Materials Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Boron in Catalysis and Materials Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Boron compounds  
Diboranes  
Metal-boron compounds  
B-H Activation  
Organometallic chemistry  
Homogeneous catalysis  
Boron in cross-coupling reactions  
Borylation  
Carbon-boron coupling

Catechol-, Pinacol-, and  
Neopentane glycolborane  
Fluorescence agents  
Chromophores  
Imaging  
Luminescent organometallics  
Nonlinear optics  
Crystal Engineering  
Synthetic Retinoids  
Boron in biology
