

# CALL FOR PAPERS

**ICEEITA 2021**  
**May 13-14, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEITA 2021 : International Conference on Electrical Engineering, Information Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Engineering, Information Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electrical engineering and information technology  
Electronic information engineering  
Information, control and vision engineering  
Electronic technology and information systems  
Control  
Machine learning  
Robotics  
Vision  
Computer software technology  
Circuit, signal and linear system  
Analogue electronics technology  
Digital electronics technology  
Microcomputer system and application

Communication electronic circuit  
Principle of communication  
Processing of digital signal  
Electromagnetic field and microwave technology  
Processing of digital image  
Operating system  
Computer communication network  
Collection and processing technology of microcomputer information  
Analysis and design of electronic system  
Design and analysis of embedded system  
Testing techniques  
E-commerce  
Modern TV technology
