

# CALL FOR PAPERS

**ICWMSIIS 2021**  
**May 13-14, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWMSIIS 2021 : International Conference on Workflow Management Systems and Industrial Information Systems is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Workflow Management Systems and Industrial Information Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Workflow management systems  
Industrial information systems  
Information technology  
Planning and scheduling  
Flow control  
Applications of workflow management systems  
Functionality and limitations of current workflow management systems  
Workflow management technology  
Dynamic work distribution in workflow management system  
Organizational workflow

Models, methods and systems  
Management of workflows  
Analyzing workflows  
Functions and architecture of workflow systems  
Roadmap for workflow system development  
Process automation  
Business activity  
Work quality  
Business process management  
Task management
