

CALL FOR PAPERS

ICRAV 2021
May 24-25, 2021
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRAV 2021 : International Conference on Research in Animal Virology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Research in Animal Virology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Animal virology
Vaccines and antivirals
Applied veterinary virology
Biotechnological applications for veterinary virology
Diagnosis, prevention and treatment of animal viral diseases
Viruses and tumours
Viral pathogenesis
Epidemiology of viral diseases
Deadliest and infectious viruses
Clinical virology and immunology

Molecular virology
Retrovirology: research and treatment
Recent advances and challenges in veterinary virology
Emerging and zoonotic viruses
Veterinary epidemiology
Evolution and genomics
Nanobiotechnology
Risk assessment and modeling
Viral immunology
