

CALL FOR PAPERS

ICAB 2021
May 06-07, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAB 2021 : International Conference on Advances in Bioelectronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Bioelectronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioelectronics engineering
Biomimetic systems
Electromagnetic compatibility
Embedded systems design
Pattern recognition
Semiconductors and wireless communications
Bioinstrumentation
Real-time and massively parallel molecular and cellular

Characterization for systems biology
Biologically-based sensors and fabrication
Protection and restoration of health
Cellular and biomolecular measurements and analyses
Fabrication
Device and material biocompatibility
Power sources
Implantable devices
