

CALL FOR PAPERS

ICACCE 2021
May 06-07, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACCE 2021 : International Conference on Automatic Control and Control Essentiality is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automatic Control and Control Essentiality. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Automatic control
Control systems design
Control essentiality
Principles of automatic control
Open-loop (feedback) control
Advantages
Disadvantages
Closed-loop (feedback) control
Basic elements of control loop
Components in a typical control system
Control actions
Discrete control (on/off)

Pid controller
Programmable logic controller
Examples
History of automatic control
Ancient Greece
Industrial revolution in Europe
First and second world wars
Space/computer age
Feedback mechanism
Feedforward mechanism
Linearity of the system
