

CALL FOR PAPERS

ICAHSE 2021
May 06-07, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAHSE 2021 : International Conference on Advances in Heating System Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Heating System Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Heating systems
Heating system engineering
Heating techniques and technologies
Home and industrial heating systems
Advanced heating system components
New progress in heating systems
Heating systems design and analysis

Control of heating systems
Design principles for heating systems
Energy-efficient home heating systems
Aerothermal heating systems
Intelligent heating systems for aircraft and helicopters
Solar heating systems for houses
