

CALL FOR PAPERS

ICCMDT 2021
May 06-07, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMDT 2021 : International Conference on Computers, Microprocessor Design and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computers, Microprocessor Design and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microprocessors	12-bit designs
Microsystems	16-bit designs
Structure	32-bit designs
Special-purpose designs	64-bit designs in personal computers
Embedded applications	Risc
History	Multi-core designs
First projects	Market statistics
Cadc	Data move
Microprocessor technology	Control transfer op codes
Embedded microprocessors	Arithmetic and logic operations
Optoelectronic microprocessors	Applications
Photonicly optimized embedded microprocessors	C-function interface
8-bit designs	Peripheral devices and applications
