

# CALL FOR PAPERS

**ICCSDI 2021**  
**May 06-07, 2021**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSDI 2021 : International Conference on Computer Software, Design and Implementation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Software, Design and Implementation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Computer engineering
- Electrical engineering and computer science
- Computer software
- Design and implementation
- Types of software
- Malicious software
- System software
- Application software
- Software patent
- Software license
- Software development
- Software industry
- Industry and organizations

- Computer hardware and software
- Software applications
- Hardware-software integration
- Software aspects
- Software architecture description
- Software architecture
- Architecture description languages
- Architecture viewpoints
- Architecture frameworks
- Architectural styles and patterns
- Software architecture and agile development
- Software architecture erosion
- Software architecture recovery
