

CALL FOR PAPERS

ICFOCTA 2021
May 06-07, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFOCTA 2021 : International Conference on First Order Cybernetics Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of First Order Cybernetics Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

First order cybernetics	Repeated change
First order cybernetics systems	The determinate machine
The peculiarities of cybernetics	Coupling systems
The uses of cybernetics	Feedback
Mechanism	Independence within a whole
Variety	The very large system
Regulation and control	Stability
Change	Disturbance
New paradigms and perspectives	Equilibrium in part and whole
Engineering applications	The black box
Future prospects and trends	Isomorphic machines
Application areas	Homomorphic machines
Transformation	The very large box
