

CALL FOR PAPERS

ICFOCTFP 2021
May 06-07, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFOCTFP 2021 : International Conference on First Order Cybernetics Technologies and Future Prospects is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of First Order Cybernetics Technologies and Future Prospects. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

First order cybernetics
First order cybernetics systems
The peculiarities of cybernetics
The uses of cybernetics
Mechanism
Variety
Regulation and control
Change
New paradigms and perspectives
Engineering applications
Future prospects and trends
Application areas
Transformation

Repeated change
The determinate machine
Coupling systems
Feedback
Independence within a whole
The very large system
Stability
Disturbance
Equilibrium in part and whole
The black box
Isomorphic machines
Homomorphic machines
The very large box
