

CALL FOR PAPERS

ICFSA 2021
May 06-07, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFSA 2021 : International Conference on Fabric Structures and Architecture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fabric Structures and Architecture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fabric structures	Cotton canvas
Forms of constructed fibers	Polyesters
Fabric structure systems	Vinyl-laminated polyesters
Tension fabric buildings	Vinyl-coated polyester
Fabric structure basics	Fiberglass
Fabric structure and design	Olefin / polyolefin
Material characteristics	PVDF woven
Fabric structure and architecture	EPTFE woven
Global fabric structures	Blackout fabric
Fabric types	Fabric roof in Tulsa, Oklahoma
Analysis method	Top coatings
The design and analysis of tension fabric structures	Fabric properties
Membrane materials	Structural properties
