

CALL FOR PAPERS

ICPPSDM 2021
May 06-07, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPPSDM 2021 : International Conference on Photovoltaic Power System Design and Modeling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Photovoltaic Power System Design and Modeling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Photovoltaic power system
Modern system
Grid-connection
Scale of system
Regulation
Standardization
Modeling and design
Planning and permit
Utility-scale power stations
Power conversion
System performance
System degradation
Performance

Components
Technology
Solar array
Mounting
Cabling
Tracker
Inverter
Battery
Monitoring and metering
CPV
Hybrid
Floating solar arrays
Direct current grid
