

CALL FOR PAPERS

ICSTM 2021
May 06-07, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSTM 2021 : International Conference on Sludge Treatment Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sludge Treatment Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sludge treatment and disposal

Sewage sludge treatment

Sources of sludge

Characteristics of sludges

Energy efficient sludge treatment

Alternative sludge disposal
methods

Sludge treatment

Ultimate disposal

Problems

Biosolids

Treatment processes

Thickening

Dewatering

Sidestream treatment technologies

Phosphorus recovery

Digestion

Anaerobic digestion

Aerobic digestion

Composting

Incineration

Drying beds

Emerging technologies

Different process of sludge
treatmentthickening

Anaerobic digestion

Aerobic digestion

Land application of sludge
