

CALL FOR PAPERS

ICUETU 2021
May 06-07, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUETU 2021 : International Conference on Urban Energy Transitions and Urbanization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Energy Transitions and Urbanization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban energy transition	Storage systems for reliable future power supply networks
Solar city	Sustainable urban mobility
Reconnecting energy generation	Rural and peri-urban electrification in developing countries
Technical and social logic of solar energy	Renewable built environment
Urbanization, increasing wealth and energy transitions	Urban heat
Direct versus embodied energy	Ecodesign and the transition of the built environment
Energy development and sustainable monetary systems	Sustainability on the urban scale
Policy and practice dynamics	Green urbanism
City energy networking	New models for urban growth
Climate change and cities	Urban energy and carbon management
Climate friendly future	Integrating energy in urban planning
Renewable energy	Sustainable energy systems
New aspects of technology
