

CALL FOR PAPERS

ICGSS 2021
May 24-25, 2021
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGSS 2021 : International Conference on Geology and Soil Stability is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geology and Soil Stability. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geology and Soil Science
Geology and Environmental
Interactions
Soil Stability Analysis
Mining and Mineral Resources
Geology in Civil Engineering
Predictions in Soil Engineering
Economical Evaluation of Soil
Gas Reservoirs
Conservation of Soil Biodiversity
Structural Geology

Soil Preservation Techniques
Geographic Information System (GIS)
Soil and Ecosystem Services
Soil Exploration
Geological Hazard Assessment
Soil and Rock Mechanics
Environmental Geology
Petroleum Geology
Remote Sensing of Environment
Geo-Technical Investigation
Techniques
