

CALL FOR PAPERS

ICVNNH 2021
May 17-18, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVNNH 2021 : International Conference on Vehicle Noise, Vibration and Harshness is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Vehicle Noise, Vibration and Harshness. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustic Analysis, Noise and
Vibration Measurement
Acoustical Measurement and
Instrumentation
Acoustical Standards for Noise and
Vibration Control
Active Control of Noise and
Vibration
Active Noise and Vibration Control
Aeroacoustic Noise
Aeroacoustics, Noise and Vibration
Aeroacoustics Including Wind Noise
Automotive Acoustics and Vibration
Automotive Interior Noise and
Vibration Damping
Automotive Noise and Vibration
Automotive Noise and Vibration
Analysis
Automotive Noise and Vibration
Control

Automotive Noise and Vibration
Control Practices
Automotive Noise and Vibration
Identification
Automotive Noise and Vibration:
Theory and Applications
Automotive Noise, Sound and
Vibration
Automotive Noise, Vibration and
Harshness
Automotive Noise, Vibration and
Harshness (NVH) Materials
Body Interior Noise
Brake and Chassis Systems
Car and Truck Pass-by Noise
Commercial and Specialty Vehicles
Damage Risk Criteria for Hearing
and Human Body Vibration
Data Analysis
Determination of Sound Power Levels
and Directivity of Noise Sources
