

CALL FOR PAPERS

ICWBSC 2021
May 03-04, 2021
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWBSC 2021 : International Conference on White Biotechnology for Sustainable Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of White Biotechnology for Sustainable Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

White biotechnology
Enzymes and enzyme engineering
White biotechnology for sustainable chemistry
Industrial biotechnology
Industrial fermentation
Advanced and innovative technics in industrial bioproduction, bioseparation, and biodetection
Bioresources, biorefinery and biomaterials
Biocatalysis
Advances in immobilisation
Novel processing
Nano-biotechnology
Scale-up/scale-down
Large-scale production

Environmental biotechnology
Biofilms in industry and biomedicine
Biocatalysis, bio-transformation
Biobased chemicals, bulk products, bio-polymers
Biorefinery, fine chemicals
Molecular biology
Biosensors
Microbiology and biochemistry, microorganisms and enzymes
Bioinformatics and molecular biology
Application technologies
Expression technology and fermentation
Production processes
Immunology and toxicology
