

CALL FOR PAPERS

ICVPE 2021
May 17-18, 2021
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVPE 2021 : International Conference on Veterinary Parasitology and Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Veterinary Parasitology and Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Veterinary parasitology
Advancement of veterinary parasitology
New veterinary technologies for detection, prevention and treatment
Animal drug use for parasite treatment
Blood parasites
Malaria research
Parasitic disease control
Chemical biology
Chemical microbiology
Microbial metabolism
Microbial genetics
Epidemiology of bacterial infections
Veterinary epidemiology

Plant disease epidemiology
Microbial assay
Infectious diseases
Microbial diagnosis
Molecular applications
Molecular pathology
Clinical pathology
Veterinary pathology
Advancements in diagnostic pathology
Histomonas Meleagridis: a new focus on a re-emerging protozoan parasite
Parasite control and livestock production
Common avian parasites and emerging diseases
Primary immune response and parasite dissemination
