

CALL FOR PAPERS

ICCMAK 2021
May 27-28, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMAK 2021 : International Conference on Computational Methods, Algorithms and Kernels is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Methods, Algorithms and Kernels. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applications of computational science
Problem solving environments
Advanced numerical algorithms
Complex systems: modeling and simulation
Hybrid computational methods
Web and grid based simulation and computing
Parallel and distributed computing
Advanced computing architectures and new programming models
Visualization and virtual reality as applied to computational science
Applications of computation as a scientific paradigm
New algorithmic approaches to computational kernels and applications

Computational humanities
Probabilistic computation
Computational complexity, economics, geometry
Education in computational science
Computational methods, algorithms and scientific application
Large scale scientific instruments
Computational sociology
Computational geometry
Computational mathematics
Medical and biomedical computational science
