

CALL FOR PAPERS

ICEPFP 2021
May 27-28, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPFP 2021 : International Conference on Experimental Physics and Fundamental Principles is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Experimental Physics and Fundamental Principles. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Experimental physics
Observation of physical phenomena
and experiments
Current experiments
Method
Famous experiments
Experimental techniques
Prominent experimental physicists
Laser cooling
Laser spectroscopy
Raman spectroscopy
Signal processing
Spectroscopy
Vacuum technique

X-ray spectroscopy
Crystallography
Ellipsometry
Faraday cage
Interferometry
Mathematical methods for
application to problems in physics
Formulation of physical theories
Applied mathematics
Classical mechanics
Technologies
Mainstream theories
Proposed theories
Fringe theories
