

CALL FOR PAPERS

ICIPCA 2021
May 27-28, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIPCA 2021 : International Conference on Image Processing and Computer Animation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Image Processing and Computer Animation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer science	Image analysis
Computer systems	Image sharpening
Image processing	Image smoothing
Signal processing	Acquisition of images
Image processing techniques	Pixel art
Computer graphics and computer vision	Sprite graphics
Standard signal-processing techniques	Vector graphics
Digital image processing	Three-dimensional
Optical image processing	Computer animation
Analog image processing	Image types
Image processing applications	Computer-generated imagery
Image processing algorithms	Animation, movies, advertising, video games and graphic design
Acquiring, processing, analyzing and understanding digital images	Representational and control requirements
