

CALL FOR PAPERS

ICMMMS 2021
May 27-28, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMMMS 2021 : International Conference on Multiple Machines and Manufacturing Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Multiple Machines and Manufacturing Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing engineering
Manufacturing practices
Flexible manufacturing
Flexible manufacturing system
Manufacturing flexibility
Manufacturing systems
Design of flexible production systems
Flexible production
Recent developments
Global economy
Lean systems
Modeling, simulation and control
Analysis of performance measures

Multiple machines
Material handling system
Advantages
Disadvantages
Flexibility
Industrial communication
Research, design and development of systems
Processes, machines, tools and equipment
Modern developments
Modern tools
Mechanics
Automation
Robotics
