

CALL FOR PAPERS

ICMQCMST 2021
May 27-28, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMQCMST 2021 : International Conference on Milk Quality Control and Milk Sampling Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Milk Quality Control and Milk Sampling Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Milk quality control
Milk quality control and regulation
Milk processing and quality management
Milk processing technologies
Milk safety and hygiene
Quality control of raw milk
Quality control of processed milk
Methods of analysis
Analysis of abnormal milk

Microbial analysis
Testing for residues compounds
Major components analysis
Protein composition analysis
Fat composition analysis
Analysis of degradation products formed during milk storage
Separation of milk fat
Milk sampling techniques
Common milk grading techniques
