

CALL FOR PAPERS

ICOCLM 2021
May 27-28, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOCLM 2021 : International Conference on Online Collaborative Learning in Mathematics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Online Collaborative Learning in Mathematics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Online collaborative learning
Cooperative learning in groups
Collaboration and individual learning
Computer-supported collaborative learning
Computer-mediated learning groups
Computers and education
Intelligent tutoring systems
Theory and practice
Collaboration theory and group cognition
Strategies
Teacher roles

Effects of computer-supported collaborative learning
Applications
Criticism and concerns
For second language acquisition
Effectiveness and perception
Cultural considerations
Design implications
Instructor's role in computer-supported collaborative learning assessment
Technology use in computer-supported collaborative learning assessment
Computer-mediated progressive inquiry in higher education
Online collaborative learning in mathematics
