

CALL FOR PAPERS

ICRDSS 2021
May 27-28, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRDSS 2021 : International Conference on Recent Developments in Stainless Steels is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Developments in Stainless Steels. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Stainless steels
Stainless steel alloy systems
Welding metallurgy of stainless steels
Advances in the technology of stainless steels
Metallurgy of stainless steels
Hardenable stainless steels
Ferritic stainless steels

Austenitic stainless steels
Duplex stainless steels
Production of stainless steels
Corrosion behaviors of stainless steels
Design and selection of stainless steel equipment
Stainless steel high temperature corrosion
