

CALL FOR PAPERS

ICRMCA 2021
May 27-28, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRMCA 2021 : International Conference on Regenerative Materials Chemistry and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Regenerative Materials Chemistry and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Regenerative materials chemistry
Biomaterials
Biomimetics
Cell and material interface in
tissue engineering
Bioactive and biodegradable
materials

Biomineralization process
Tunable materials
Light harvesting materials
Self-healing materials
Genetic materials
