

CALL FOR PAPERS

ICSDCIS 2021
May 27-28, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSDCIS 2021 : International Conference on Security of Digital Communication and Information Systems is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Security of Digital Communication and Information Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Access Control and Audit
Advanced Cryptographic Algorithms
Authentication and Authorization
Biometrics
Block and Stream Ciphers
Cloud Computing Security
Codes, Cryptology and Information Security
Computer and Information Security, and Cryptography
Computer Security and Cryptography
Copyright Protection
Cryptanalysis
Cryptographic Protocol
Cryptography and Data Security

Cryptography and Information Security
Cryptography and Information Security Systems
Cryptography and Security in Computing Systems
Cryptography for Network and Information Security
Cryptography in Information Security
Cryptology and Discrete Mathematics
Cryptology and Information Security
Digital Forensics
Digital Signature
Distributed Systems Security
Efficient Implementation
Electronic Commerce
Hash Function
